# Course Content

**EVOLVE Courses** are self-paced and relevant, with resources that include a solid balance of research and applicability. All courses feature video clips, articles, and interactive elements to enhance and support learning. Participants will engage in the following:

- Activate prior knowledge in order to establish new learning goals.
- Access research-based resources and materials to deepen your understanding and broaden your skillset.
- Assess new learning with a Knowledge Check formative assessment.
- Complete activities to implement new learning in the classroom or school setting.
- Engage in student-to-student interaction in a discussion forum.
- Reflect on professional growth and consider the potential impact of newfound knowledge and skills.

To receive a letter of completion, participants must complete a Final Assessment and score 80% or higher.

# Foundations of The Science of Reading

Course Number: 110\_25 | 3 Hours

*This document is an outline of the course requirements and is subject to change.*

## Course Description

This course provides a comprehensive overview of the Science of Reading, a research-backed approach to reading instruction. You'll explore key components like the Big Five, Scarborough's Rope, and the distinction between word recognition and language comprehension. You'll gain a deeper understanding of how children learn to read and develop the skills to implement effective, evidence-based literacy practices.

## Course Objectives

1. Recognize the overall focus of The Science of Reading.
2. Identify various components within the Science of Reading framework, including the Big Five, explicit instruction, Scarborough's Rope, Word Recognition, and Language Comprehension.
3. Understand what the Science of Reading entails, and what it does not entail.

## Course Materials

This course does not use a textbook. All required articles and resources are linked within the course modules.

**Important!** Courses are completed 100% online within the learning management system. You should have access to a compatible web browser (such as Google Chrome, Microsoft Edge, Apple Safari, and/or Mozilla Firefox). While our course platform does support mobile devices, for the best user experience, we recommend using a desktop or laptop computer to complete courses.

## Course Delivery

All coursework will be completed and submitted online within the learning management system. Log-in to your account at [www.teachingchannel.com](http://www.teachingchannel.com) to access your online course and view additional details for assignments.

- Explore a variety of educational resources, videos, and additional tools necessary for successful course completion.
- Complete module assignments including reflective journaling, opportunities to demonstrate new learning, and engagement in the discussion forum.

## Grading & Feedback

Once you have successfully passed the Final Assessment (80% or higher), your letter of completion will be accessible on your Account page (after a few hours). Visit [teachingchannel.com](http://teachingchannel.com) to sign into your Account.

## Collaboration

Collaboration is a key component of the learning experience, designed to promote a supportive and inclusive learning environment where diverse perspectives are valued and respected. Teaching Channel asks learners to interact with their peers through discussions, participate with colleagues in collaborative assignments, and engage with embedded tech tools.

## Academic Integrity

While collaboration is encouraged, each learner must complete their own assignments and assessments individually, ensuring the integrity and originality of their work. Any instances of academic dishonesty, including plagiarism or unauthorized sharing of work, will be addressed in accordance with Teaching Channel's [Collaboration and Plagiarism Policy](#).
